Doyle Shipping Group

EDI PorterSM

Electronic Data Interchange (EDI) for marine terminal operators just got a whole lot simpler with Tideworks' EDI PorterSM. With straight-forward options designed to meet your needs, EDI Porter provides a rock solid foundation and cutting edge tools to handle all of your EDI demands. Whether you and your team want to be involved or prefer a hands off approach to EDI, Tideworks has a solution that's right for you.

EDI Porter as a Service (EPaaS) is Tideworks' hosted, full- service model that makes EDI easier and less expensive for your operations. We take the hassle out of day-to-day EDI management with an all-inclusive service that includes program management, EDI translation, visibility tools and more. EPaaS includes the following products and services:

- **Managed File Transfer:** Acting like an electronic post office, we distribute data to your trading partners securely and reliably.
- **Translation and Cleansing:** We translate electronic messages from a format preferred by your trading partners to the format required by your applications. We also cleanse the data to filter out what isn't necessary.
- **Data Archiving:** To meet your legal and contractual obligations, we take care of storing the data we process on your behalf.
- **Compliance Enforcement:** Our sophisticated compliance enforcement engine allows us to set up enforcement rules for US Customs and other regulatory agencies.
- **Visibility Tools:** Some companies are hesitant to outsource EDI for fear of losing control. With EDI Porter, you'll have complete visibility of all EDI exchanges using our suite of monitoring tools.

Why Tideworks for EDI?

Industry Expertise

Tideworks exchanges EDI with most international shipping lines, so we can implement your EDI solution quicker and more cost-effectively than the alternatives.

Complete Package

Whether you choose our EPaaS or EPaaSP option, we provide everything you need to get started and begin trading messages right away.

Full Visibility

Our user-friendly visibility tools enable you to monitor the status of EDI messages, so you can be sure everything is running smoothly.

More to Your Bottom Line

We deliver our EDI Porter solutions for considerably less than the alternatives.
